The EDC provides guidance and support to the Shoreview City Council on matters relating to economic development and redevelopment, and promotion of business retention and expansion through business visits, networking events, and other programs. The EDC also works closely with the Shoreview Economic Development Authority on economic development and business matters.

The Economic Development Authority (EDA) has two vacancies and will be accepting applications thru Thursday, November 10th. The EDA facilitates economic growth by supporting existing businesses, fostering reinvestment in residential neighborhoods and commercial areas, and promotes the creation of new business, employment and housing opportunities in order to sustain and enhance the economic vitality of Shoreview. Members of the EDA consist of three councilmembers and two members that include individuals who are either residents of Shoreview or work in, own or operate business in Shoreview. Individuals concurrently serving on another City committee/commission are welcome to apply.

Interested individuals must complete and return applications to City Hall.

## **City Begins Hydrant Flushing Program**

City Utility Maintenance Crews recently began their biannual hydrant flushing program that is used to clean sediment from water mains and insure proper operation of hydrants and valves. During the flushing process, residents may notice reduced water pressure and some discoloration

of the water for a short period of time. Although there is no health hazard associated with the discolored water, residents are encouraged to run cold water through their taps until the water is clear. It is also suggested that residents avoid doing laundry (particularly whites) while the hydrants are being flushed or water is discolored. Hydrant flushing is expected to be completed by the end of October. For more information visit the City's website or call 651.490.4661.
